NEW MINTO ENERGY STAR® CERTIFIED HOMES – SAVING YOU MORE MONEY PER MONTH!

HOW MINTO'S NEW HOMES EARN THE ENERGY STAR®

To earn the ENERGY STAR®, our homes must meet strict guidelines for energy efficiency set by the U.S. Environmental Protection Agency (EPA), making them 20-30% more efficient than standard homes. Our homes achieve this level of performance through a combination of energy-efficient improvements, including:

- Insulated sealed duct air conditioning system for improved indoor air quality
- Low volatile organic compound (VOC) **Sherwin-Williams®** paints and **Mohawk®** carpet
- Exterior ventilation of range hood
- In-wall **Taexx®** pest defense system eliminates personal contact with active ingredients
- **PGT®** energy efficient low-emissivity (Low-E) windows
- Complete **GE®** ENERGY STAR® appliance package
- High efficiency 14-SEER **Carrier®** central air conditioning and heating
- Energy-saving compact fluorescent light bulbs
- R-30 batt insulation on ceilings and R-4.1 on block walls
- **GE®** Geospring™ energy-saving hybrid water heater
- Automated drip irrigation system
- **Moen®** water-saving plumbing fixtures
- Water-saving dual-flush, comfort-height and elongated water closets to reduce water consumption
