MASTERCARE

Seasonal maintenance

Check water heater for leaks, etc.

To do list:

Following a comprehensive maintenance schedule is important for protecting your new home investment, and setting the stage for many years of enjoyment. Keep this checklist handy to track these important tasks. Is there something you're unsure of? Our MasterCare team is always ready to address any questions or concerns.

	Spring
March	
	Clean or replace furnace filter
	Check/clean Heat Recovery Ventilator (HRV); wash or replace filter
	Clean the mechanisms of the humidifiers
	Check attic for signs of moisture and even distribution of insulation
	If possible, carefully remove snow/ice from roof overhangs/vents
	Check sump pump, float and discharge line; test overall operation
	Test smoke alarms and carbon monoxide detectors
April	
	Check eavestroughs and downspouts; clean if needed
	Clean window wells, drainage swales or catch basins of leaves, snow and ice build-up
	Inspect basement or crawl space for signs of seepage/leakage and check for dampness or musty smells
	Check for missing, loose or cracked shingles
	Remove winter cover from air conditioning unit; inspect unit; vacuum or brush the outdoor coil and wash; service as needed
	Check driveway and walks for cracks from frost damage

Spring (continued)

May

Open outside hose connection and check for leaks
 Clean and check windows, screens and hardware
Clean or replace furnace filter
Check/clean Heat Recovery Ventilator (HRV); wash or replace filter
Check air intakes and exhaust are clear of debris, nests, etc.
Check exterior finishes (siding, trim) and eavestroughs to ensure they are secure
Check caulking for soundness, cracking, detachment and signs of water or air penetration
Lubricate rubber or plastic weather stripping around doors and operable windows
Test smoke alarms and carbon monoxide detectors

Summer

June

 Check roof flashing, valleys and vents, and check for missing/damaged shingles
Check auxiliary buildings such as sheds for secureness to base anchors; loose or missing components; damage caused by rodents, etc.
Check sump pump, float and discharge line and test overall operation
Clean range hood filter
Check exterior wood surfaces for deterioration and refinish the wood surfaces

July

Air out damp basements on dry, sunny days
Clean air conditioning filter, vacuum or brush the outdoor coil and wash
Clean and test all exhaust fans; lubricate if necessary
Test smoke alarms and carbon monoxide detectors

August

 Air out damp basements on dry, sunny days
Clean air conditioning filter, vacuum or brush the outdoor coil and wash
Inspect driveway and walks
Inspect doors and locks

Fall

September

	Check exterior finishes (siding, trim) and eavestroughs to ensure they are secure; check exterior brick mortar joint and voids (repoint if necessary)
	Check movement of garage doors and lubricate moving parts as needed
	Check caulking for soundness, cracking, detachment and signs of water or air penetration (remove and replace with appropriate type of caulking, if necessary)
	Check fireplace and chimney dampers; service or clean if needed
	Have furnace/heating system serviced including Heat Recovery Ventilator (HRV) and humidifier
	Check sump pump, float and discharge line; test overall operation
	Check clothes dryer vent and remove lint/obstructions
	Test smoke alarms and carbon monoxide detectors
	Clean or replace furnace filter
	Check/clean Heat Recovery Ventilator (HRV); wash or replace filter
October	
	Check eavestroughs/downspouts; remove leaves and other debris
	Shut off exterior water supply and drain water lines
	Install winter cover for air conditioning unit
	Check roofing and flashing for signs of wear or damage
	Lubricate rubber or plastic weather stripping around doors and operable windows (replace weather stripping if damaged)
	Check caulking for soundness, cracking, detachment and signs of water or air penetration (remove and replace with appropriate type of caulking if necessary)

Fall (continued)

November

 Check attic for signs of moisture and even distribution of insulation
 Inspect floor drains to ensure traps are filled with mineral oil
 Clean or replace furnace filter
 Check/clean Heat Recovery Ventilator (HRV); wash or replace filter
 Clean the mechanisms of the humidifiers
Check for condensation and humidity
Clean and test all exhaust fans; lubricate if necessary
Test smoke alarms and carbon monoxide detectors

Winter

December

Check air ducts, remove covers and vacuum dust from vents
If possible, carefully remove snow/ice from roof overhangs/vents

January

Clean or replace furnace filter
Check/clean Heat Recovery Ventilator (HRV); wash or replace filter
Check and ensure that air intakes, exhausts and meters are clear of snow
If possible, carefully remove snow/ice from roof overhangs/vents
Test smoke alarms and carbon monoxide detectors

February

Check and ensure that air intakes, exhausts and meters are clear of snow If possible, carefully remove snow/ice from roof overhangs/vents
